

ProBio

Comprehensive Platforms

End-to-End Services: Discovery to Commercialization

Biologics

16 International license-out projects

100+ International CMC & CMO projects

50+ Global IND approvals

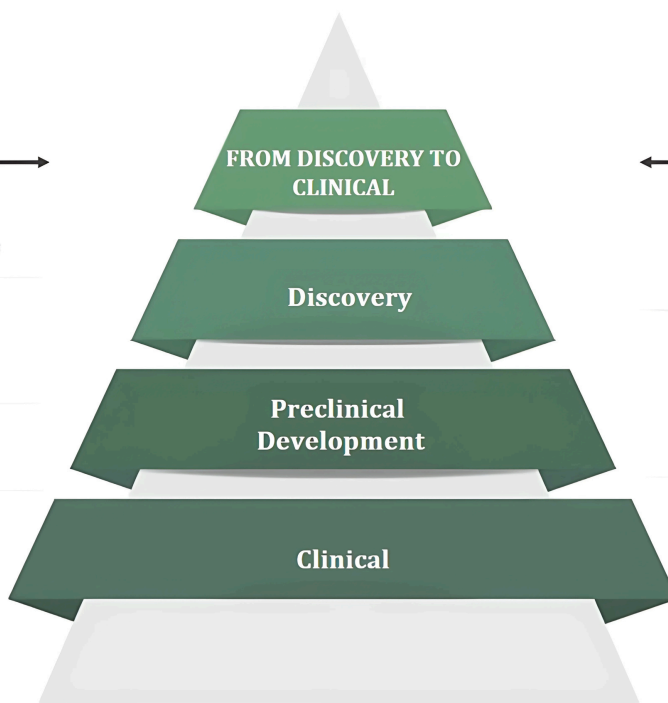

150+ GMP batches completed

CGT

60+ Global CMC projects

70+ IND approvals from NMPA, FDA and PMDA, MFDS: CAR-T, TCR-T, mRNA vaccine and CRISPR related cell therapy

700+ Global clinical mfg. batches

CGT

- CAR Candidate Molecule Discovery
- Plasmid, Virus, mRNA CMC
- Plasmid, Virus, mRNA for pre-CMC
- GMP Plasmid
- GMP Virus (LVV, AAV, RV)
- GMP mRNA
- GMP Plasmid for Commercial Use
- GMP Virus (Q2 2025)

Discovery

- State-of-art ProSpeed™ Single B Cell Platform
- Fully Human Ab Discovery
- SMAB Bispecific Antibody Platform

Pre-clinical/Development

- Proprietary ProCLD Cell Line Development Platform
- Fed-batch & Process Intensification Platform
- Perfusion and Continuous Process Platform

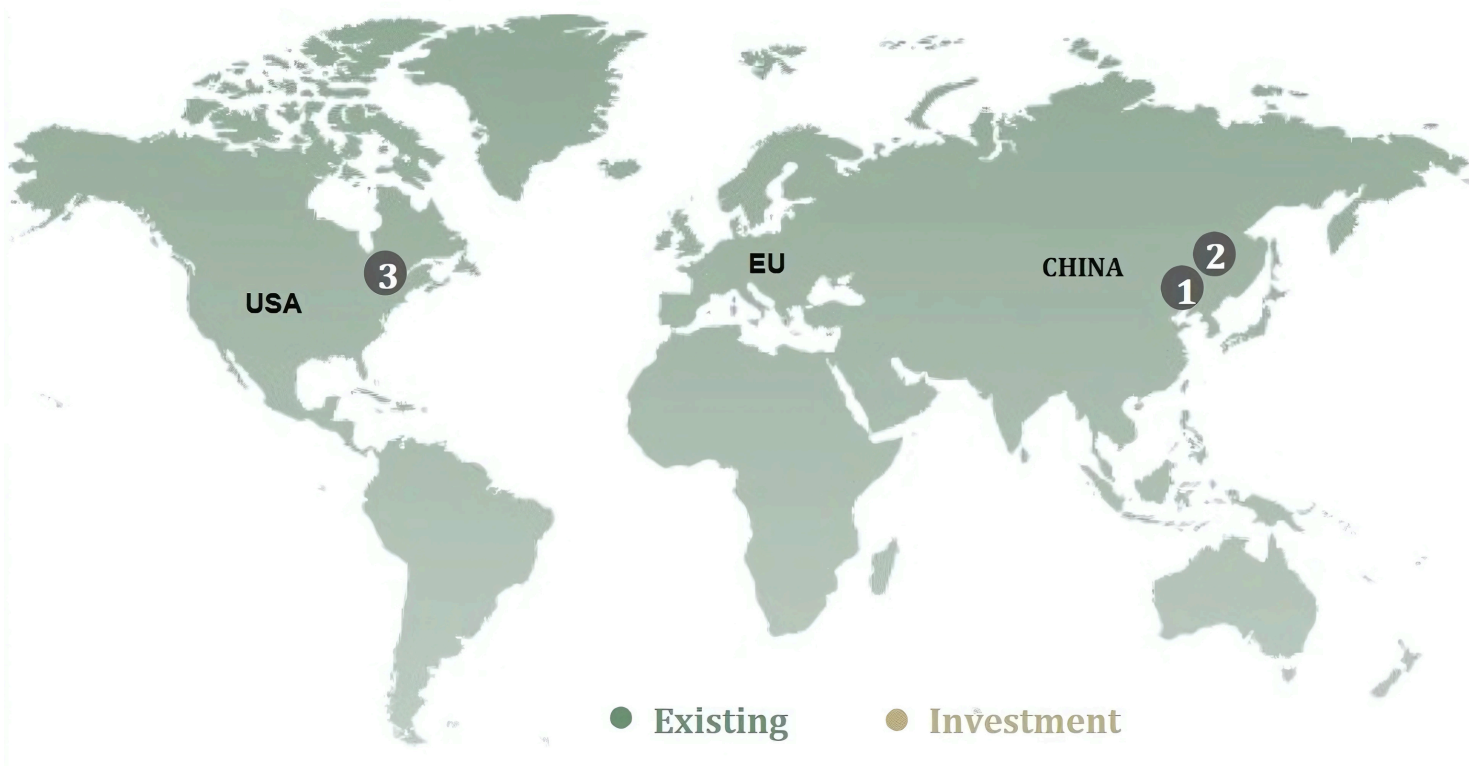

Early Stage Clinical

- Clinical Manufacturing

Late Stage Clinical/Commercialization

- Process Characterization, Process Validation
- Commercial Manufacturing
